PROFILE

I am a second-year computer science student at the Faculty of Computer Science at AGH. My main interests lie in web and software development and I am software engineer in Lekta AI. I am proficient in English at B2 level and I am keen to improve both my technical and language skills.
In addition to my studies, I am an active member of the AGH student council and a player in the AZS AGH handball team. In my free time, I enjoy going to the gym, playing various team sports and playing the guitar.

EDUCATION

Computer Science
AGH UST
2022-present

SKILLS

HARD SKILLS

Jetbrains Tools
Java
Python
Rust
HTML5/CSS
JavaScript
SQL
Git
Flow Diagrams

SOFT SKILLS

Teamwork
Interpersonal skills
Time Management
Problem-solving
Leadership

WORK EXPERIENCE

Junior Software Developer
Lekta AI
03.2024-present

PERSONAL PROJECTS

PERSONAL PORTFOLIO

Crafted dynamic and responsive web experiences with AOS, showcasing HTML5, CSS3, JavaScript proficiency. Executed captivating animations and innovative string manipulation for an engaging user interface. The website is optimized for seamless performance across various devices.

WEBSITE ABOUT HANDBALL

Implemented quiz and animated sections on homepage using HTML5, CSS, and JavaScript, showcasing advanced techniques like dynamic title changes based on tab visibility and responsive section animations. This project reflects adeptness in front-end technologies with a strong emphasis on enhancing user interaction and experience.

DARWIN SIMULATION

simulation implemented in Java. The simulation has many configuration options, saving data to a CSV file, multi-threading, and a responsive map
